

# Advisory

## TransLink

TransLink is a refillable card that is currently accepted as payment on **Muni, BART, AC Transit, Golden Gate Transit, Caltrain, and the Dumbarton Express.**

This form of payment will eventually be the primary and preferred form with all Bay Area transit agencies and passes with many individual agencies will no longer be available.

Your TransLink card can provide the same frequent rider discounts you are used to, but can be automatically or manually reloaded online or at a participating retail location.

Commuter benefit vouchers can be used to add value to a TransLink card.

For more information, visit [www.translink.org](http://www.translink.org)
